

SAVE WARNER CREEK!

Rally For The Forests!

Join Smokey Bear and Woodsy Owl and the other outraged critters of Warner Creek as they hold the "Animal-People's Court" outside the Federal District Court where the Warner Creek hearing will be held. The critters and their human-supporters will protest the planned salvage logging of this "protected" spotted owl habitat reserve following a criminal arson fire in 1991. While the Oregon Natural Resources Council and the Sierra Club sue the Forest Service inside the federal building, we'll be holding court outside with The Lorax as the prosecuting attorney, the critters as the jury, and YOU as the judge! Bring your favorite critter costume, signs, banners, instruments and your wild forest spirit while we witness this historic case that will decide the fate of the forests!

When: Tues, Feb. 28th, 1995, at Noon

Where: The US Federal Building, corner of 7th and Pearl

SAVE WARNER CREEK!
